Raj Kumar Khadka

Computer Engineer

9861087537 | rajkumarkd01@gmail.com | LinkedIn | rajkumark.com.np | Github

PROFESSIONAL SUMMARY

Computer Engineer with strong analytical skills, experienced in data preprocessing, dataset handling, and basic predictive modeling using Python, SQL, and TensorFlow. Skilled at extracting insights and communicating results clearly, eager to apply data-driven skills to support real-world decision-making.

TECHNICAL SKILLS

Programming & Databases

- Python, C, C++
- Bash Scripting (Basic)
- MySQL, MongoDB

Systems & IT Support

- Linux (Ubuntu), Windows OS
- System installation & configuration

Networking & Tools

- Basic networking (IP config, DHCP, routing)
- Git & Github
- Command Line (Linux & Windows)

Quality Assurance Skills

- Basic Understanding of Manual Testing concepts
- Test case writing and execution

WORK EXPERIENCE

Lab and Research Assistant **Nov 2025 – Present**

Nepal Engineering College (NEC), Bhaktapur

- Supported 100+ students per semester by resolving coding issues in Python, C, and data structures during lab.
- Provided technical troubleshooting for software errors, system crashes, and network issues.
- Contributed to manuscript preparation for the project *"Ishara Setu: An NSL Detection System Utilizing LSTM,"* worked for publication in Engineering Reports (Wiley).

Search Engine Optimization Intern **Oct 2025 – Nov 2025**

Velox Lab, Kathmandu

- Performed keyword research, optimized content, metadata, and internal links to improve search rankings.
- Tools: Google Search Console, Google Analytics, Semrush, Screaming Frog, and basic technical SEO tools.

Data Entry Associate **Dec 2021 – Mar 2022**

Central Bureau of Statistics, Government of Nepal (GoN)

- Validated and digitized 2078 B.S. national census datasets for reporting purposes.
- Collaborated with officials to ensure accurate dataset interpretation.

PROJECTS

Ishara Setu - Nepali Sign Language Detection System **Jan 2025 – Aug 2025**

- Collected and curated 13,500+ NSL video samples (51 sign classes) and performed data preprocessing including frame extraction, normalization, and gesture-region filtering using Python and OpenCV.
- Tech Stack: Python, OpenCV, NumPy, Pandas, Matplotlib, TensorFlow, Keras, Jupyter Notebook.

Notera - Notes Management System **March 2024 – Aug 2024**

- Designed web platform for organizing academic notes.
- Tech Stack: PHP, MySQL, XAMPP, HTML, CSS, JavaScript, and Bootstrap for web and database management.

EDUCATION

Bachelor of Computer Engineering **July 2021 - Aug 2025**

Nepal Engineering College (NEC), Pokhara University **CGPA: 3.83 | Dean's List**
