Raj Kumar Khadka

Computer Engineer

9861087537 | rajkumarkd01@gmail.com | LinkedIn | rajkumark.com.np | Github

PROFESSIONAL SUMMARY

Computer Engineer with strong analytical skills, experienced in data preprocessing, dataset handling, and basic predictive modeling using Python, SQL, and TensorFlow. Skilled at extracting insights and communicating results clearly, eager to apply data-driven skills to support real-world decision-making.

TECHNICAL SKILLS

Programming & Databases

- Python, C++, Android Development (basic)
- Object-Oriented Programming Concepts
- Database Management, Web Development

Networking & Tools

- Basic networking (IP config, DHCP, routing)
- Github
- Command Line (Linux & Windows)

Systems & IT Support

- Linux (Ubuntu), Windows OS
- System installation & configuration

Quality Assurance Skills

- Basic Understanding of Manual Testing concepts
- Test case writing and execution

WORK EXPERIENCE

IT Infra Intern **Apr 2026 – Present**

BizHub Consulting Services Pvt. Ltd, Lalitpur

- Supported SAP HANA system monitoring, user/session checks, and client-server communication in Linux environments.
- Executed basic admin tasks including service management, log monitoring, and issue troubleshooting for database.

IT Lab Assistant **Nov 2025 – Mar 2026**

Nepal Engineering College (NEC), Bhaktapur

- Supported 100+ students per semester by resolving coding issues in Python, C, and data structures during lab.
- Provided technical troubleshooting for software errors, system crashes, and network issues.
- Performed validation of program outputs and ensured correctness of results during lab sessions.

Search Engine Optimization Intern **Oct 2025 – Nov 2025**

Velox Lab, Kathmandu

- Performed keyword research, optimized content, metadata, and internal links to improve search rankings.
- Tools: Google Search Console, Google Analytics, Semrush, and basic technical SEO tools.

PROJECTS

Ishara Setu - Nepali Sign Language Detection System **Mar 2025**

- Collected and curated 13,500+ NSL video samples (51 sign classes) and performed data preprocessing including frame extraction, normalization, and gesture-region filtering using Python and OpenCV.
- Tech Stack: Python, OpenCV, NumPy, Pandas, Matplotlib, TensorFlow, Keras, Jupyter Notebook.

Notera - Notes Management System **Jun 2024**

- Designed web platform for organizing academic notes.
- Tech Stack: PHP, MySQL, XAMPP, HTML, CSS, JavaScript, and Bootstrap for web and database management.

EDUCATION

Bachelor of Computer Engineering **July 2021 - Aug 2025**

Nepal Engineering College (NEC), Pokhara University **CGPA: 3.83 | Dean's List Award (2025)**

- Scholarship Award: Earned 4.0 SGPA in 4th, 6th, 7th, and 8th semesters for academic excellence.
